Dear Johan

Whilst I have no big objection to the proposed extension of the poultry farm, except to say it is not in keeping with the long term objectives that Zinkwazi should be an upper market, low density holiday and residency area. I am greatly concerned about the disposal of the poultry manure, because I can remember a couple of years back this (Raw) sewerage was spread over the sugarcane fields directly behind my house in Panorama Drive which resulted in an appalling smell and a high incidence of flies for a period on nearly two months.

Kind regards
