 Attention Mr J Bodenstein.

21st June 2008

Dear Johan,

Fairways Sewage Treatment Plant.

We thank you for the copy of the Draft Scoping Report for the above development, which we received on 13th June. Having read the document we have the following queries and questions.

1. How long is the septic tank system expected to be in use and where on Portion 534 will the soak away system be located, as the area seems to be almost fully occupied.
2. Reference the cbm letter of 21 October 2007 to the Executive Director eThekweni Waste Water.
 - 2.1 Paragraph 2.3. Appendix A – the full context of the design is not included.
 - 2.2 Paragraph 3.2. Appendix B – the full monitoring analysis of the Balmoral plant carried out by Dave Nozaic for the past year is not included.

Without this information it is almost impossible to assess the suitability of the proposal.

Would you please ensure that we receive a printed copy of the next report where we assume these matters will be covered.

Regards

Allan Childs
